F10[®]

Disinfectant Aerosol and Aerosol Fogger

PROPRIETARY NAME AND SIZES

- F10 Disinfectant Aerosol Fogger
 - F10 Disinfectant Aerosol
- (liquid, ready to use, in 500 ml canisters)

REGISTRATION AUTHORITIES

Act 29 GNR 529/29990/040/150

COMPOSITION

Quaternary ammonium and biguanidine compounds (0,072%) and propellant.

INDICATIONS

High level disinfection of **hard surfaces** and **air spaces** within a 35 cubic meter area. Effective against bacteria, fungi, viruses and bacterial and fungal spores at the correct contact time.

APPLICATIONS

F10 Disinfectant Aerosol :

High level disinfection of pre-cleaned hard surfaces e.g. examination tables, trolleys, work surfaces, laminar flow cabinets. Also suitable for the disinfection of hard-to-reach areas e.g. incubators.

F10 Disinfectant Aerosol Fogger :

High level disinfection of consultation rooms, theatres, labs, vehicles and any area where there is a risk of airborne contamination. One 500 ml canister will effectively disinfect 35 cubic meters of air space.

DIRECTIONS FOR USE

F10 Disinfectant Aerosol :

Spray onto pre-cleaned surfaces and allow to air dry.

F10 Disinfectant Aerosol Fogger :

Remove animals from area
Place the canister on the floor, close all windows and doors, activate the fogger and leave the area
Allow 10 – 15 min for the F10 to disperse before re-entry
Re-introduce animals as soon as fumes have cleared
